Proficient in:
HTML
CSS
JavaScript
Responsive design principles
Web development best practices

Programming:
Python
Java
C/C++
C#

Soft skills
Time management, Teamwork, Problem Solving.

Projects

Comprehensive school's website
Developed a comprehensive school website using HTML, CSS, and JavaScript to showcase institution information, faculty details, courses, and extracurricular activities. Implemented responsive design for seamless viewing across devices. Collaborated with teachers and fellow students, incorporating valuable feedback to create a visually appealing and functional website that effectively represented the school.

Iconnect - Social media App
Created a fully functional Android social media application using Java and Firebase. The application allowed users to create profiles, connect with friends, share posts, and engage in interactive discussions. Implemented features like user authentication, real-time messaging, and seamless media uploading. Leveraged Firebase's backend services for data synchronization and reliable connectivity, ensuring an enjoyable user experience.

Languages

- English
- Nepali
- Hindi

Education

High School Diploma in Computer Engineering   Gulmi, Nepal
Shree saraswati secondary school

Declaration

I declare you that the information given above is true to the best of my knowledge and belief.
